Tel. +39 347 2469500 e-mail: [info@stuccoitaliano.it](mailto:info@stuccoitaliano.it)

|                  |   |
|------------------|---|
|                  | watercourse, into the drainage system or has contaminated the soil or vegetation.   |
| Cleaning methods | Collect as much of the product as possible, Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Take up mechanically and collect in suitable container for disposal.. Wash the area with water. Eliminate all in compliance with the relevant current regulations. |

### 7. HANDLING AND STORAGE

|                   |   |
|-------------------|---|
| Storage condition | Keep the containers properly closed, in suitable space at a temperature between +5°C and +35°C. |
|-------------------|---|

### 8. INDIVIDUAL CONTROL

|                        |  |
|------------------------|--|
| Precautionary measures | Do not eat or drink during work, wash hands at every break and at end of work. |
| Breathing protection   | None required.   |
| Protection of hands    | Protective gloves.   |
| Protection of eyes     | Safety glasses.  |
| Protection of skin     | Lightweight protective clothing  |
| Exposure limits:       | Not applicable.  |

### 9. CHEMICAL/PHISICAL CHARACTERISTICS OF THE PRODUCT

|                  |  |
|------------------|--|
| Physical state   | Liquid.  |
| Colour           | Milky.   |
| Odour            | Ammoniacal.  |
| pH value         | 7,5 ± 0,5  |
| Viscosity        | 9000 mPas (Brookfield, sonda n. 5, 10 rpm, 20°C)     |
| Boiling point    | 100° C. 212° F.                                      |
| Flash point      | Closed cup: not applicable Open cup: not applicable. |
| Water Solubility | Completely miscible.                                 |
| Specific weight  | 1,44 ± 0,01 kg/l a 20 °C                             |

### 10. STABILITY AND REACTIVITY

|                            |  |
|----------------------------|--|
| Condition to be avoided    | None in particular. Stable under recommended storage conditions. |
| Substances to be avoided   | None in particular.  |
| Hazards from decomposition | None   |

### 11. TOXICOLOGICAL INFORMATION

LD50/oral/mouse= 5000 mg/Kg

Vapours due to thermic decomposition irritant.

### 12. ECOLOGICAL INFORMATION

Degradation: The need of biochemical oxygen (BOD 20) concerning tested latexes is lower than measurement limits of the equipment. The product colours rivers in milk white. In spite of its slow biodegradation the product does not give rise to ecological problems both for water and soil. Ecotoxicity: The most part of latexes have a low toxicity for fishes (96H LC50 higher than 100 mg/lt).
